So said Acting Inspector of Police Nicholas Brooks yesterday. He had charge of the census of children who were of school age which was taken a year ago by the police, and knows how inadequate the school accommodations were then. That there have been practically no additions since is well known.

The committee has not provided for new schools since the law authorizing the saie of bonds went into effect on July 1, because the Board of Education, which must approve our action, and the courts, which must condemn, were not in session in the Summer.

"We held a meeting last week, and will meet again next week, when we will have some information gathered by experts relative to real estate hald before us. I can-

"Our supply of petty criminals is bred and trained in the swarming tenements of the East Side. There the school accommodations are most inadequate. The people do not have the resource of the parochial schools, as the mass of time are not Roman Catholics or Luther an—the religions denominations which manitalia the largest number of religious schools. The parents are poor and cannot send their children to private schools. The best life in a tenement is not elevating, and sometimes the home influences are distinctly bad. When children from such homes are taught in the schools they learn to rise above the the schools they learn to rise above the schools are and will be lacking for a long tong they are allowed to rup the streets they learn all that is evil. For several days they have been industriously engaged in making a wreck of the Kingsbridge Police Station, and only needed a little more time to have completed their job. Yesterday their master was released on bail, and promptly went to the station-house and claimed his pets. His claim was joyfully recognized, and as the trio entered a furniture van and were driven away they were roundly cheered. Above are a few of the little incidents they have taken part in since their sojourn in New York.
